Subject: Texas Benefits Center

Dear Texas County Public Servant,

We are Texas Benefits Center: a non-profit organization contracted by the State of Texas to build a network of social assistance centers to connect those in need of financial assistance with local and state resources that are available to them.

We specialize in helping biological parents with children under 3 years old, adoptive parents, biological fathers of unborn children, and pregnant women to get connected with local and state assistance programs and services that can help them meet their basic daily needs. Those unable to make in-person appointments across the state can be served online and via the phone through Texas Benefits Center.

Texas Benefits Center is a state funded program and is completely free for qualified Texas residents who utilize our services. We would love to partner with public servants across Texas to raise awareness about the services we offer and how we can assist qualified individuals in their time of need. You can find more information about our services at [TexasBenefits.Center](http://TexasBenefits.Center).

Enclosed you will find brochures, in both English and Spanish, that include information about the services we offer through Texas Benefits Center. Please make these available to those seeking assistance in your community. To request additional brochures (free of charge), please email: [efinch@thewomens.clinic](mailto:efinch@thewomens.clinic)

Thank you for helping us spread awareness about Texas Benefits Center.

Sincerely,

Elizabeth Finch  
Outreach Liaison
