## OPEN HOUSE

**Thursday, Sept. 27**

**5 -7 p.m.**

The purpose of the proposed project is to improve mobility and safety. Within the project limits, SH 29 is currently one 12-foot lane in each direction with variable width shoulders. The proposed project would:

- Widen SH 29 to add alternating passing lanes and 10-foot shoulders throughout the project limits, with left turn lanes to RM 1431 & RM 2241
- Not require new right of way and no displacements are anticipated
